

SMARTIE

Synergistic Management and Advancement of Artificial
Intelligence in European Higher Education

WP2. Alliance for Artificial Intelligence in Higher Education – Setup SMARTIE

T2.2. Analysis related to adoption AI in educational process

D.2.2.2. E-questionnaire for stakeholders

A. Background Information

1. *Which country is your institution located in?*
2. *What type of organization/stakeholder do you represent?*
 - ☐ Policy-making authority (e.g., Local or National Government)
 - ☐ Regulatory or accreditation body
 - ☐ Educational institution (school, university, training center)
 - ☐ Research or think tank organization
 - ☐ Business enterprise (for-profit)
 - ☐ Technology or EdTech provider
 - ☐ Non-profit, Advocacy group, NGO
 - ☐ Individual expert or consultant
 - ☐ Recent graduate or student
 - ☐ Other (please specify)
3. *In which sector does your company operate?*
 - ☐ Technology
 - ☐ Healthcare
 - ☐ Finance
 - ☐ Education
 - ☐ Manufacturing
 - ☐ Retail
 - ☐ Government
 - ☐ Public Sector
 - ☐ Energy
 - ☐ Telecommunications
 - ☐ Consulting
 - ☐ Non-profit, NGO
 - ☐ Others (please specify)
4. *What is your role within the organization?*
5. *Is your organization currently using any form of Artificial Intelligence (AI)?*
 - ☐ Yes
 - ☐ No
 - ☐ Not Sure
6. *If yes, in what areas is AI being applied?*
 - ☐ Customer Service
 - ☐ Sales and Marketing
 - ☐ Operations and Supply Chains
 - ☐ Human Resources and Recruitment

- Product Development and Innovation
- Finance and Accounting
- Data Analysis and Business Intelligence
- IT and Cybersecurity
- Legal and Compliance
- Healthcare and Medical
- Manufacturing and Production
- Others (please specify)

7. *If yes, how do you currently use AI to improve your work*
8. *From your perspective, what AI-related or IT skills and knowledge do graduates often lack when entering your sector?*
9. *Do you think it is important for the public to be informed about the benefits and threats of AI? Why or why not?*

B. AI in higher education

10. *How familiar are you with the use of Artificial Intelligence (AI) in higher education?*
 - Not familiar
 - Somewhat familiar
 - Very familiar
11. *What actions should universities and colleges take to respond to the rise of AI?*
12. *To what extent should higher education institutions embrace AI technologies?*
 - Not at all
 - Cautiously
 - Strategically
 - Extensively
13. *Are you aware of any successful applications of AI in higher education? Have you experienced any positive impacts of AI in higher education?*
 - Yes, I am aware and have experienced positive impacts
 - Yes, I am aware, but I have not experienced any positive impacts
 - No, I am not aware, but I am open to learning more
 - No, I am not aware and have not seen any positive impacts
 - I have heard of AI applications, but I am unsure about their impact or success
14. *In your opinion, what are the 3 main potential benefits of using AI in higher education? Please select*

- Personalized learning experiences for students
- Automated grading and faster feedback
- Improved student support services (e.g., chatbots)
- More efficient administrative processes
- Enhanced accessibility for diverse learners
- Data-driven decision-making for curriculum improvement
- Greater flexibility for remote and online learning
- Others – please specify

15. *What concerns, if any, do you have about the use of AI in higher education?*

- No concerns
- Loss of personal interaction between students and instructors
- Privacy and data security risks
- Over-reliance on automated systems and reduced critical thinking
- Widening the gap between institutions with and without access to AI technologies
- Lack of transparency in how AI makes decisions
- Dehumanization of education (students treated like data points)
- Difficulty in properly regulating and overseeing AI usage
- Other (please specify)

16. *What impact do you think AI will have on the role of educators in higher education?*

- I don't think AI will have a major impact on educators' roles
- Educators will focus more on mentorship, critical thinking, and personal development
- Routine tasks will be largely automated, freeing up time for more strategic teaching
- Educators will need to develop new skills to effectively use and manage AI tools in the classroom
- The relationship between students and teachers will become less personal due to increased automation
- Other (please specify)

17. *What essential skills should universities prioritize to equip students for an AI-driven future? (Multiple selections possible)*

- AI knowledge and technical skills
- Critical thinking and ethical reflection
- Data protection and security awareness
- Problem-solving skills and adaptability
- Other (please specify)

18. *How effective do you believe AI can be in preventing the spread of disinformation (e.g., deepfakes, fake news) in higher education?*

- Very effective
- Somewhat effective

- ☐ Neutral
 - ☐ Less effective
 - ☐ Not effective at all
19. *Do you believe there should be national or international regulations guiding AI use in higher education?*
- ☐ Yes
 - ☐ No
 - ☐ Not sure and why
20. *Who should be responsible for setting ethical standards for AI use in universities?*
- ☐ Universities
 - ☐ Governments
 - ☐ Independent bodies
 - ☐ Joint responsibility
21. *What safeguards should be in place to ensure fair and responsible AI use in education? Please select the most important ones for you.*
- ☐ Clear ethical guidelines for AI usage
 - ☐ Regular audits to check for bias in AI systems
 - ☐ Data privacy protections for students
 - ☐ Transparency in how AI decisions are made
 - ☐ Human oversight in AI-driven processes
 - ☐ Others (please specify)
 - ☐ I am not sure
22. *What actions are needed to prevent AI from widening social or regional inequalities in access to quality education?*
- ☐ Provide government funding for AI tools and training
 - ☐ Create partnerships between well-funded and less-funded universities
 - ☐ Offer free or low-cost AI platforms for education
 - ☐ Share AI research and best practices openly
 - ☐ Set up international programs to support under-resourced universities
 - ☐ Develop global standards to guide fair AI use
 - ☐ Other (please specify)
23. *What role should international cooperation play in shaping AI policies for higher education?*
- ☐ Essential – global standards and cooperation are required
 - ☐ Important, but national policies should take precedence
 - ☐ Somewhat unimportant – AI regulation should be institution-specific
 - ☐ Not important – each country should develop its own AI policies
 - ☐ Other (please specify)

C. Future Outlook and Collaboration

24. *What role do you think AI will play in the future of higher education? What developments do you expect in the next five years?*
25. *What do you think is essential for the responsible and effective integration of AI in higher education?*
- Clear ethical rules and guidelines
 - Strong data privacy and security
 - Good training for teachers, staff, and students
 - Transparency about how AI makes decisions
 - Human oversight and control
 - Equal access to AI for all universities
 - Careful testing before using AI widely
 - Others (please specify)
26. *What skills do you think graduates will need in an AI-enhanced educational and workplace environment?*
- Critical thinking and problem-solving
 - Adaptability and willingness to learn new technologies
 - Digital literacy and AI tool proficiency
 - Collaboration and teamwork with AI systems
 - Creativity and innovation in applying AI solutions
 - Others (please specify)
 - I am not sure
27. *How important is it for higher education institutions to involve external stakeholders in AI-related ethical and accountability decisions?*
- Very important
 - Important
 - Neutral
 - Somewhat unimportant
 - Not at all important
28. *Should industry and government work more closely with universities on AI integration?*
- Yes, why?
 - No, why?
 - I'm unsure, because
29. *What role could cross-sectoral partnerships (e.g., with NGOs, businesses, or governments) play in ensuring the responsible integration of AI in education?*

30. *How can your organization contribute to the responsible development or implementation of AI in higher education?*
31. *What would encourage your company to engage more in supporting AI initiatives in higher education?*
- funding opportunities
 - Policy incentives
 - Talent pipeline benefits
 - Shared research access
 - Others (please specify)
32. *How prepared do you feel your sector is to collaborate with higher education institutions on AI-related initiatives?*
33. *What challenges does you see in fostering collaboration between your sector and higher education institutions around AI adoption?*
34. *Do you support increased public investment in AI research and development in the education sector?*
35. *Do you have any additional comments, concerns, or recommendations regarding the use of AI in higher education?*
